

ASTRONOMY unit order of study  
2008-2009 Second Semester  
(Dates of assignments are posted in the assignment table)

Ch. 18 Section 1 - Astronomy: The Original Science - pg. 554-557

Chapter 22 - Exploring Space

Ch. 22 Section 1 - Rocket Science - pg. 684-687

Ch. 22 Section 2 - Artificial Satellites - pg. 688-693

Ch. 22 Section 3 - Space Probes - pg. 694-699

Ch. 22 Section 4 - People in Space - pg. 700-705

QUIZ ON THE ABOVE

---

Chapter 20 - Formation of the Solar System

Ch. 20 Section 1 - A Solar System is Born pg. 614-617

Ch. 20 Section 3 - The Earth Takes Shape pg. 624-629

Ch. 20 Section 4 - Planetary Motion pg. 630 - 633

Chapter 21 - A Family of Planets - "Our Solar System and motions within"

Ch. 21 Section 1 - Our Solar System - pg. 644-647

Ch. 21 Section 2 and Section 3 - Inner and Outer Planets - brief overview by handout

Ch. 21 Section 5 - Small Bodies in the Solar System pg 668-670

Ch. 21 Section 4 - Moons (ours only, phases and eclipses) parts of pg. 660 - 664

Ch. 14 Section 4 - Tides - pgs. 432-435

TEST ON THE ABOVE

---

Stars, Galaxies and The Universe

Ch. 20 Section 2 - The Sun, Our Own Star pg. 618-623

Ch. 18 Section 3 - Mapping the Stars pg. 564-570

Ch. 19 Section 1 - Stars pg. 582-588

Ch. 19 Section 2 - Life Cycle of Stars - pg. 590-595

Ch. 19 Section 3 - Galaxies - pg. 596-599

Ch. 19 Section 4 - Formation of the Universe - pg. 600-603

TEST ON THE ABOVE
